CHAPTER ON SWEEPERS

President Marshall Hunt For Cleaners.

MORE THAN ONE COMPANY

Was Asked to Sell the City, and They Quoted Prices—A Few Caustic Words From the Doctor—He Has a Few Letters to Prove the Attack One Long Lie.

The efforts of a local paper, ever willing and ready to think a man a thief, to throw a cloud over the street sweeper purchase and then with masterly brilliancy (?) clear it away by casting suspicion on an honest man, caused Doctor Marshall, president of council, to free his mind today.

If there was the slightest ground for the suspicion that council had tried to rob the city instead of doing it a great good by purchasing a sweeper there would be some excuse for the hints at jobbery and theft, but not a member of council can be shown as any way interested in the purchase beyond what good it will do the general public. The attack is unwarranted and without cause, but is in keeping with the questionable principles of the paper.

"For the benefit of the general public," said Doctor Marshall today, "I will say that the Crisis is as far from hitting the mark in the sweeper matter as it is in everything else. It speaks without understanding or knowledge, and in its blind ignorance goes stumbling along in the dark until it bumps against an obstruction, and in attempting to show if council has done anything wrong in this case it will meet more than one obstruction. As you and all the town know, the business of the city is open to the public, and whenever the public wants information it can get it. The Crisis never asked me, and as far as I know, never asked any other councilmen whether we had looked elsewhere before buying a sweeper. Had the paper done so it would not have made the awful blunder last night and would not now have one more big black mark to its credit. We did investigate, and have replies from half a dozen or more makers of street sweepers in the country. They all offered a price, and the F. C. Austin Manufacturing company wrote me a letter on the matter. Here it is," and the doctor pulled from his spacious inside pocket a type-written letter signed by the company in question. It was directed to him as the president of council, and offered an Austin sweeper at the regular rate, \$450, but stating that \$400 was the price. As a check upon any suspicion of jobbery the company have a system of its own and enclosed was a slip of paper showing that this offer was recorded on page 663 of book 173, and stating that the sweeper would not be sold at the price quoted unless the slip was returned. It states plainly that goods will be shipped at catalogue price if the slip was not returned with the order, and the slip represents their lowest discount.

"There are sweepers and sweepers," continued the doctor, "and doubtless we could buy them at the half of \$400, but we don't do private business that way and there is no reason we should do it for the public. Not a taxpayer in town wants a sweeper that will not do the work, and these cheap ones will never fill the bill in a hilly town such as this. We looked to the public interest when we bought the sweeper, and have no reason for believing that we got anything but one that will keep the streets clean. We got it for the least money it could be bought, and investigated before we made the purchase."

"The action of the paper in question can readily be traced to the fact that the News Review wanted a sweeper and it wanted the streets washed," said a city official. "It is a pure matter of jealousy. Newspapers are like men; not honored for what they claim to do, but what they really do, and I don't know of anything the Crisis ever did except blackguard people."

AT REST.

The funeral of the late Mrs. George Sebring.

The funeral of the late Mrs. George Sebring took place from the First Methodist Episcopal church this afternoon at 2 o'clock, a large number of sorrowing friends and relatives being in attendance. Reverend Butts, of East Palestine, was assisted in the services by Doctor Huston, and each paid honor to the life and deeds of the deceased, showing plainly the chief characteristics of a nature that was as good as it was sincere. The casket was almost buried in floral offerings, the beautiful pieces speaking in words louder than any language the high esteem and profound respect in which the deceased was held. Interment

was made in Riverview, a large course of friends going to the cemetery. Mr. Sebring and family have the heartfelt sympathy of many friends in their great sorrow.

A number of East Palestine people were in the city to attend the funeral among them being several employees of the pottery.

MISSED AN ATTRACTION.

The Best Minstrel on the Road Changed Its Mind.

When it was first arranged to open the Grand for the season the management attempted to book Billy Van's minstrels, one of the best companies on the road, but met with the haughty reply that his expenses were \$400 a day, and he couldn't think of stopping in a town like Liverpool. Another company was secured, and the management thought no more of the matter until a letter came from the sweet singing minstrel, for he is a sweet singer, asking the date, but it was too late to cancel the other, so Billy missed a few golden coins and Liverpool missed a good performance.

STOLE THE TENT.

Troubles of Youthful Showmen are Great.

The young showmen who have a circus on Avondale street have a hoodoo among them or their mascot has passed into the great mysterious beyond. The wind played them a scurvy trick the other night by blowing their tent to pieces, but with the hope and enterprise of youth they replaced it with a new one, and continued the performances. Being weary last night they did not take it down, and this morning it was gone. They believe they know the name of the thief, and unless the property is returned they will report the matter to the police.

IT MUST COME.

A Concentrated Move For a Navigable Ohio.

A move is on foot among rivermen that will in all probability result in the damming of the Ohio, so as to make it hold six feet of water every day in the year, and allow the running of boats at all times, except when Jack Frost intervenes. The congressmen of all the districts bordering on the river are to be invited to meet in Cincinnati some time before congress convenes, and a plan of active campaign is to be presented for their approval and convenience. If the river cannot be slackwatered in this way a stock company is proposed.

PRESERVED THE PAPER.

A Chinese Journal Found in an Old Crockery Crate.

While taking straw from an old crate at the D. E. McNicol pottery the other day some of the employees found a Chinese paper. The crate had evidently come from the flowery empire, and some celestial had dropped his morning paper in the straw unintentionally. The paper is of that tough, rough material always used by the Chinese, and the characters are smaller than those of the San Francisco paper. It was at once torn into several pieces, and now does duty for its several owners as a relic.

BOUND FOR HOME.

The Tourist Potters Have Left the Shores of Europe.

Messrs. Sebring, McNicol, Forster and Jackson were in Paris on Monday, but have left that city, and are now on the ocean homeward bound. They will reach New York in the allotted time of six days if all goes well, and will be home next week. The travelers have had a delightful trip, and in private letters have told wonderful stories of what they saw, but there is a lurking suspicion that they saw many sights in the pottery districts which are of more interest to their business minds.

STRUCK BY LIGHTNING.

A Middleton House Destroyed by a Flash From the Sky.

MIDDLETON, Aug. 7.—The house of John Wickersham was struck by lightning yesterday and was soon enveloped in flames.

The house and its entire contents were burned. The loss is complete, there being no insurance on the house or goods. Nobody was injured.

DELAYED THE MAILS.

A Wreck at Hudson Caused Trouble Last Night.

Patrons of the postoffice accustomed to having certain mail delivered every morning with unfailing regularity were disappointed today because of a freight wreck at Hudson. It mixed up the mails, and caused no end of trouble to the railway clerks and in the local office. It required some time to unravel the tangle.

TO IMPROVE THE OHIO

Cincinnati Makes the First Good Move.

AFTER THE NEW CONGRESS

An Attempt Will Be Made To Enlist All the River Interests in the Various States. East Liverpool Will Be In It From the Start.

A special sent out from Cincinnati last night gives this interesting information:

"A report was made by the river improvement committee of the chamber of commerce yesterday in favor of improving the navigation of the Ohio river. The report was adopted and the chamber appointed a special committee of five to enlist all the river interests of the states bordering on the Ohio river to move with a solid front on congress at its next session to appropriate \$1,000,000 for that purpose."

East Liverpool will be directly in the movement, and will likely be given an opportunity to show what it can do. An outlet the whole year by the river would mean a powerful competitor for the railroad, as is proven by the large shipments when the packets are at work. If a movement is made that promises success the local board of commerce will get into the fight, and do its best to help the cause along. A member of the board said this morning that they believed the most formidable competitor the Pennsylvania company could have would be the river when slackwatered, and dams built along it from Pittsburgh to Cincinnati. He laughed at the idea of \$1,000,000 being anything like enough money to do the work, but said an appropriation would likely be made for that amount to start it.

"One good feature," said the gentleman, "would be the leverage we would have on the Pennsylvania company, and that would be worth thousands of dollars to the potters here every year. Now we can't have anything without paying dearly for it, and with a competitor in the shape of the river our saving would be a big thing. A great deal of Liverpool ware is sold in the south, and the Louisville and Nashville and the Cincinnati Southern roads would be only too glad to give us a low river rate in order to get the business. If this move in Cincinnati means anything we will work like beavers to help it along, for of all the important towns along the railroad needing better transportation we are the greatest sufferers. Portsmouth, Ironton, Steubenville and Wheeling have more than one road, and can play one against the other with pretty fair prospects of winning out. The money saved to Liverpool, for we ship many barrels of ware to the south, would pay for a substantial contribution to any fund raised for the purpose of pushing an appropriation through congress. Then the natural development of a country with such a waterway would mean great things."

ONLY A DELUSION.

It Was Not a New Trolley Wire—Only For Repair Purposes.

There was excitement near the power house yesterday afternoon. Motormen leaned far over the dash and looked with longing eye, while passengers stared from the windows and almost twisted their necks out of joint, for there was a great roll of copper wire, and the report had gone out that it was a new trolley wire. There was hope in every breast, and people rode homeward with the joyous assurance there would be no more transfers. But it was all a mistake, and transfers are as much in sight as they ever were, for when a newspaper man approached Superintendent Andrews with the half-uttered question on his lips, "When are you going to string it?" the man of many sorrows heaved a sigh, attempted to smile and replied, "It's wire for repair purposes."

TESTING THEIR SPEED.

Hale, Trappe and Irons Will Race On Monday.

President Will Taylor, of the C. C. C. C. is working hard today arranging for a few races, but good ones, at East End park on Monday afternoon. The principal riders will be Irons, Hale and Trappe, and the events will be of unusual interest. These crack riders, for every one of them is a crack, will do their best, and all who attend are assured rare sport. There will be no prizes, but the contestants will ride for all they are worth. A telegram was sent to Trappe this afternoon, and his answer is expected in time for the C. C. C. C. meeting tonight when

all the arrangements will be completed for the road race. The prizes have been secured, and all who contemplate entering should be present. A number of new names will be acted upon.

A REGIMENTAL REUNION.

Many Pittsburg Veterans to Be Here on Friday.

The surviving veterans who fought in Company F, Forty-sixth Pennsylvania Infantry during the war, will meet at Columbian Park tomorrow in annual reunion. The soldiers who reside here are Charles Shenkle, James Wildblood, James Baum, Samuel Searight, B. W. Haines and N. A. Frederick. The regiment was recruited in Pittsburg and Beaver county, and a number of persons from there will be here. The Grand Army and the Relief corps will attend the picnic tomorrow afternoon. The old soldiers will do nothing during the day, but enjoy themselves.

A GREAT GAME.

Goodwins Defeat the Thompsons and Are Jubilant.

The long looked for game between the Goodwin and Thompson pottery teams was played at West End yesterday and the Goodwin nine were victorious by a score of 13-4.

The features of the game were the battery work of Farish and Phillips for Goodwin's and the fielding of the Carey brothers for the same club. Lynch, Hackathorne and Specht were the battery for Thompson's.

The Goodwin team felt so good over their victory that they decorated their shops today with flags and announced their willingness to play with any team in the city.

THE GOVERNOR COMING.

He Will Be Here on Friday or Saturday.

Governor and Mrs. McKinley will be here on Friday or Saturday, and will stay a week or two at the residence of Col. John N. Taylor, on Fifth street. The governor will attend the picnic of the Township Line club on Wednesday of next week. They have been very anxious to have him there, and the news will be cheering intelligence to them. The governor has been paying particular attention to state business for weeks, and the rest here will do him a great deal of good. He always likes to come to Liverpool, and the city has a warm place in his heart.

A DISGUSTED MAN.

Otto Schmidbauer May Quit the Business.

Otto Schmidbauer is disgusted. For several years he has been the official night soiler of the city, and was happy, but now he doesn't care whether he continues the business or works on the streets with pick and shovel. His complaints are numerous. He now gets but \$17 for what he formerly got \$40, and money is hard to collect. In fact he seldom collects any of it, but the last straw came the other day when he was informed by a man who owed him that "in the old country they pay big money for the privilege of doing what you do."

A WARNING.

A Liverpool Family Will Not Visit In Martin's Ferry.

Arrangements had been completed by a resident and his family to visit with friends in Martin's Ferry, and they were packing their trunks preparatory to leaving this week. But they didn't go, nor are they likely to go. A letter came from the people they were to visit warning them to keep out of the place for smallpox was still in the town, and was increasing at a dangerous rate. The trunks were unpacked, and the family remained at home.

NOT COMPULSION.

The Soldier Boys Are Anxious to Go to Camp.

Members of Company E want the public to understand that their going to camp is not a question of compulsion. They signed a paper some time ago agreeing to sacrifice their pay if taken to camp, and there is nothing in the idea of compelling them to go. They do not care whether they are compelled to go or of their own free will, they want to go and expect to go, for they have had no word to the contrary.

Married in Poland.

Bert Phillips, superintendent of the rolling department of the Lisbon tin mill, secured a license yesterday afternoon at the court house, and this morning left Lisbon for Poland, O., where he was married to Miss Linne D. Cope, of Wellsville. Both young people are well known here, and their many friends wish them joy. Miss Cope was one of the leading society women of Wellsville.

ALL ABOUT A VAULT

Officer King Has a New Case In Court.

WILL BE TRIED BY A JURY

And Will Be Delayed Several Days Because There Are No Lawyers In Town. The Officers Do Not Like the Treatment, and Will Push the Case.

The board of health have another case in court, and this time it is all about a vault.

Not long ago Officer King and Otto Schmidbauer looked at Carpenter's run, and in their travels found a well-filled vault on the property of Mrs. E. J. Bagley. It was decided to notify the owner, but the night-soiler could not find her, and made complaint to her husband. There was a row of no mean proportions, Bagley asserting that he would attend to that matter himself. As he was positive there was nothing further for Schmidbauer than to walk away. This did not satisfy the health authorities, and Bagley was notified again to fix the vault. Then he claimed there was no vault there, and that put the officers on their mettle. They left Bagley alone in his glory, and investigated. They claim the box had been removed, it was located a few feet from the run, and the hole filled up with ashes and fresh dirt. Not satisfied with what their eyes showed, they secured a sewer hook, and probed the ground with satisfactory results. Then Officer King notified the mayor, and he informed the defendants that a charge was against them. They appeared this morning, and the sanitary policeman was given a thorough overhauling in the presence of the mayor. Bagley charged King with all sorts of things, but it had no effect on the mayor since the official was not there to defend himself, and took their plea of not guilty. As this would necessitate a jury trial, the mayor could do nothing but delay the trial until next week. A great deal of bad blood seems mixed up in the case, particularly on the part of the defendants.

At Spring Grove.

While Spring Grove is just as pretty as at any time this season, and life in the park has not lost a single pleasure, cottagers are commencing to move home. John Patterson had his household goods brought in today.

The rain last night was the fiercest experienced this season, and some cottagers feared their roofs would not stand the constant patter, and prepared for weak spots with tubs and buckets, but there was little, if any, inconvenience in camp.

Lost Three Fingers.

SPECIAL TO THE NEWS REVIEW.
LISBON, Aug. 7.—When the 7-year-old son of William Lodge, of this place, was playing with an axe this morning he discovered that an axe is not the most pleasant toy in the world, for it cost him three fingers of his right hand.

Mrs. Susan Crawford, an aged resident of this place who is well known in the southern part of the county, is very ill, and it is feared she cannot survive the afternoon.

Powell Won't Row But He Will Run.

John Powell, pressman of the News Review, in answer to the challenge of John Litmer, pressman of the Crisis, desires to say that he will not row him a race because he never lived by the water, he don't like water and only uses it for drinking purposes. But if the other pressman wants an athletic contest Powell offers to run him five miles across country in the heat of the hottest day possible for honor or money as his opponent will decide.

Serving Notices.

Chief Gill was busy yesterday from early morn until late at night. He was serving notices on property holders whose land is on Peake Point, Ridgeway avenue, Calcutta road or West Market street because of the grading operations that will soon be commenced on these streets.

Criminal Libel and Damages.

M. M. Huston, who figured prominently in the little episode with Commissioner Welsh on Monday evening, told a reporter today that he would enter suit for criminal libel and damages against a local paper for the manner in which he was written up last night.

Offers a Reward.

Chief Gill carries around with him a letter from Carl Bros., of Shreve, offering \$50 reward for the capture of burglars who robbed them the other evening of revolvers and cutlery to the amount of \$300.

EAST LIVERPOOL, O., WEDNESDAY, AUG. 7.

DEBATE SUMMED UP.

What Horr and Harvey Think
of Their Own Efforts.

COIN'S SCHOOL FULL OF ERRORS.

So Mr. Horr Asserts, and Says Harvey
Wasn't Able to Dispute It—Harvey Says
Horr Found Only One Error—Their
Arguments Given.

CHICAGO, Aug. 7.—A summing up of
the Horr-Harvey debate has been made
by the principals themselves. Mr. Horr
says in part:

"The object of this debate was to de-
termine if it would be wise for our na-
tion to throw open its mints to the free
coinage of silver at a ratio of 16 to 1
when the civilized nations of the world
refuse to join in such action. My op-
ponent proposed to prove that such
course is advisable, and undertook to
do it on the lines laid down in 'Coin's
Financial School.' I denied the advis-
ability of such action and attacked the
teachings of that book from the title
page to its close. The debate is finished,
and how does the case stand? Mr.
Harvey admits that the book is pure
fiction. He repudiates its motto by de-
claring that it does not mean what it
says. His statement that primary
money only is the measure of value, he
has not even attempted to sustain,
though his proof has been called for re-
peatedly. His statement that the peo-
ple of the fifteenth and sixteenth cen-
turies were in the most 'degraded con-
dition of serfdom and slavery' on ac-
count of metal money has been com-
pletely demolished.

"He based his whole argument on
the proposition that the silver dollar
was in 1873 made the only unit or
measure of value. I have shown con-
clusively that our forefathers attempted
to establish bimetalism and provided
for two units of value, one of gold and
one of silver—always naming gold first,
and that up to 1873 the silver standard
alone was used. That after the gold
standard came into use, and that since
that the silver dollar has never for a
day been used as the measure of value
in the United States. No nation has
ever succeeded in actually using two
standards at the same time.

"Mr. Harvey next based his case on
the assumption that the law of 1873 was
a crime, and stated that it had its origin
in fraud and its birth through bribery
and corruption. This he failed to prove.
"The gold unit is not responsible for
the fall in prices. The prices of labor
and property, when taken together,
have not declined, but it is not true
that the fall in prices, when brought
about by natural causes, benefits only
the moneylender. Such cheapening of
products benefits all who consume what
they do not produce.

"Mr. Harvey utterly failed to show a
fall in the price of a single article
which is not fully accounted for by
cheaper cost of production, improved
transportation or increased supply.

"Correctly analyzed, the financial
condition of this country has improved
immensely during the last 25 years—in
the face of the charges made to the con-
trary by Mr. Harvey.

"The condition of the masses of the
people in the United States has im-
proved more rapidly since the law of
1873 than during any similar number
of years since the nation was born.
Indeed the improvement has been far
greater than that of any other nation
on the face of the earth during an equal
number of years, at any period in the
world's history, as Mulhall has conclu-
sively shown.

"Mr. Harvey, in this debate, as in
'Coin's Financial School,' misleads peo-
ple by partial statements which lead to
false conclusions, when the whole state-
ment would have been perfectly clear
to anyone.

Mr. Harvey endeavors to prove de-
creasing wages in the United States
since 1873. He introduced only one
statement in support of his position;
that was the evidence of a single man
for one trade in the city of Omaha.

On the other hand, to prove that they
are advancing, I introduced the inves-
tigation of the United States commis-
sioner of labor and Mulhall, who show
that the average annual wages in man-
ufacturing industries have risen from
\$2.88 in 1870 to \$5.69 in 1890.

"Mr. Harvey virtually admits that
free silver, which he proposes, will put
this nation on a silver basis and drive
gold out of this country.

"Mr. Harvey said nothing to offset
my proposition that such action would
destroy the credit of our people and
lead to business disaster in every com-
munity in the United States.

Mr. Harvey said in part: "The de-
bate settles in my judgment the fol-
lowing propositions:

"First—That gold and silver is the
money of the constitution. Mr. Horr
did not controvert this, and I left it
with Daniel Webster's statement to
that effect. Since this debate, the press
dispatches report the supreme court of
Ohio as deciding that a municipality
cannot issue bonds payable in gold
alone; that such bonds should be pay-
able in either gold or silver. If that
court has done so, it has clearly de-
cided rightly. There is no doubt in
my mind but that the United States
supreme court would have decided un-
constitutional the act of 1873, if it had
been sooner understood that it would
destroy the function of money residing
in silver.

"Second—That the silver dollar was
the unit of value in our coinage system
fixed by the act of 1792. Mr. Horr ad-
mits this.

"Third—That silver and gold both
were the measures of value of all other
property till 1873 and the debtor had a
right to pay in either metal. Mr. Horr
admits this.

"Fourth—That the act of 1873 was
unconstitutionally passed.

"Fifth—That for all time of which
we have knowledge, gold and silver
were treated equally as money; both
had a right to enter the mints in all
the countries of the world until 1816, when
England closed her mints to silver, and
1873-74, when the United States, Ger-
many, France and the Latin Union
followed.

"Sixth—That prices of all property
are now measured in gold alone, and
are substantially at the present time
one-half what they would be under the
bimetallic system. Mr. Horr frequently

in debate substantially makes this ad-
mission.

"Seventh—That there were \$143,000-
000 in silver coined at our mints prior
to 1873, all of which coined prior to
1853 was primary money; and since
1853 the silver dollars were primary
money, and by virtue of the right of
silver to be coined into primary money
through the medium of silver dollars,
the whole volume of the silver supply
was behind our monetary system, was
exerting its influence as a measure of
value and stood ready to be coined, and
to share equally with gold the demand
for money. That all the silver coined
since February 12, 1873, has been token
money, representing gold; is not exert-
ing an influence as a measure of value,
and is not performing the functions of
primary money.

"Eighth—I believe that those who
read and carefully digest the debate will
conclude that I have made good all the
propositions set forth in my opening
statement. Mr. Horr only found one
error in 'Coin's Financial School.'"

TWO DETECTIVES SUSPENDED.

They Allowed the Backer of the Jersey
Counterfeiters to Escape.

NEW YORK, Aug. 7.—Two sensations
have developed from the arrest of the
gang of Jersey City counterfeiters who
were run to ground by Chief Hazen of
the secret service. One is the escape
from the officers of Dentist O. E. Brad-
ford, who is supposed to be the finan-
cial backer of the gang, and whose ar-
rest cost a great deal of trouble. Dr.
Bradford was found in his rooms Sat-
urday night, but Chief Hazen did not
formally arrest him then, fearing that
his confederates might take alarm and
escape.

Detectives Calligan and Burns were
on guard, one in each adjoining room,
but when the chief returned Sunday
morning he found that the dentist had
escaped from his room. The fact of the
escape has just been made public and
it may cost Detectives Calligan and
Burns their places. Both have been
suspended from duty by the treasury
department and an investigation has
been ordered.

ROASTED SECRETARY SMITH.

A Georgia Populist Stops Him on the
Road and Calls Him a Traitor.

ATHENS, Ga., Aug. 7.—While Sec-
retary Smith was en route to Jefferson,
from Athens, he was met on the road by
Lee Vandiver, a Populist, who plied
him with many questions and used very
offensive language, telling him he was
a turn-coat, traitor, etc.

Secretary Smith treated the remarks
as coming from an insane man and in-
structed his coachman to drive on.

Valkyrie III Will Be Kept Hid.

NEW YORK, Aug. 7.—It is understood
that very little will be seen of Valkyrie
III by New Yorkers, until the day of
the first race. According to present ar-
rangements, the cup challenger, when
she arrives here, will be met at Sandy
Hook by a health officer, who will pass
her, thus doing away with the neces-
sity of coming to upper quarantine,
and enabling her to anchor in the
Horseshoe, lack of Sandy Hook.

Carlisle Touring the Lakes.

MACKINAC ISLAND, Mich., Aug. 7.—
Secretary of the Treasury Carlisle, ac-
companied by Mrs. Carlisle and grand-
daughter, on board the United States
steamer Amaranth, have been visitors
at the island. The Amaranth came
from Chicago. The party visited the
National park and Old Fort Mackinac.
The Amaranth then left for Duluth and
way ports.

Wrecked the Wrong Train.

WARSAW, Ind., Aug. 7.—Train wreck-

it instead, and the locomotive and
several cars were thrown down a steep
embankment. The trainmen escaped by

NEGROES ARE BARRED

All Their Effects Moved From Spring Valley, Ills.

MINERS READY FOR OUTSIDERS.

Not Scared by the Threats of Negroes in Chicago and Peoria to Attack Them. Sensational Reports Condemned—One Correspondent Run Out.

SPRING VALLEY, Ill., Aug. 7.—The situation is very quiet in the city. The negroes are making no efforts to come back. The reports about armed negroes coming from Peoria and Chicago to avenge Sunday's affair caused no unusual excitement here. They would not have only the Italian miners to deal with, but every white miner in the city as well, numbering in the neighborhood of 2,000. Word has been sent in from Ladd and Tolna promising the whites all the assistance necessary in case of an invasion of blacks from other towns. In case of an invasion 5,000 white miners could be mustered together in this city in less than two hours. The whites of this city do not apprehend any danger in that direction. They do not express the least sorrow over the event of Sunday, and invite a fair and impartial investigation.

They claimed to have endured the outrages of the blacks as long as they could, but they are severe in their criticisms of the sensational tales told in several special dispatches to the newspapers. A whole list of names have each day appeared as wounded and likely to die. Your correspondent, who was on the ground and witnessed Sunday's battle from beginning to end, has succeeded in discovering but one negro shot, and the injury is only a flesh wound of no serious nature. About 10 to 12 were assailed with sticks or stones, but no attempts were made to kill. Had the mob been so disposed, not one could have escaped. The prime objects as stated on the ground while the fighting was at its height, was to scare them into leaving and never come back again. The reports of a number lying dead in the ravines is made of whole cloth, and the names mentioned are fictitious. At a meeting of miners, several papers were denounced for their highly colored and distorted stories. The newspaper correspondent who was compelled to flee the town has not returned. It was the middle class and business men who ordered him to leave, so enraged were they at his sensational reports.

Mayor Dolmageo has received an anonymous letter postmarked Chicago, threatening to wipe him and the entire city out of existence if he did not use his position to get the blacks back in this city again. Everything has gone along serenely since the negroes were driven out Sunday, but no doubt trouble will again be ok out if they make an attempt to come back. The Spring Valley Coal company have representatives at Seatonville trying to persuade the blacks to return, but the latter are satisfied to keep away. The mines are still idle. Nearly all the negroes have gotten their effects out of Spring Valley. Nearly all their furniture has been moved to Seatonville, where most of them are getting work. In all probability the Spring Valley miners will return to work today.

Governor Altgeld is on his way here to investigate the situation. A Chicago special says: The stories of two women refugees from Spring Valley has stirred the negroes of Chicago to the highest pitch. At a mass meeting committees were appointed to raise funds and secure arms for a force to proceed against the Italians in Spring Valley.

A delegation called on General Merritt to ask that the United States troops be sent to Spring Valley. He told them that in the event of the failure of the civil authorities to preserve order and protect the colored people of Spring Valley, he would act. The facts had been communicated to President Cleveland by telegraph.

A white man who advised moderation at the mass meeting was thrown out of the window.

GLADSTONE'S EARNEST WORDS.

He Denounces Turkey and Asks England to Help the Armenians.

WINCHESTER, England, Aug. 7.—Mr. Gladstone has made a speech here on the Armenian question to a large audience. He said that a dispassionate inquiry, which was made after the Sassoun massacre, showed that the powers of language did not suffice to describe the statements, which made the blood run cold. [Loud applause.] The present situation in Armenia resulted from intolerably bad government, perhaps the worst on the face of the earth. [Applause.] He then read a resolution to the effect that:

"This meeting expresses its conviction that her majesty's government will have the support of the entire nation, without distinction to party, in any measures it may adopt in order to secure for the Armenians such reforms in the administration of the province as provide effective guarantees for the safety of life, honor, religion and property, and no reforms can be effected without the continuous control of the European powers."

It was adopted.

WOMEN ENGAGE IN A RIOT.

Wives of Squatters Tear Down Fences Built by Owners of Land.

MARINETTE, Wis., Aug. 7.—A riot has occurred in Shantytown, the land which is claimed by the Menominee River Lumber company, also by over 200 squatters. The lumber company built a fence and 30 or 40 women attacked it with axes, tore it down and then threw the fragments into Green bay.

When another crew attempted to rebuild the fence the women chased them away with clubs, and John Lumburg, the foreman, was seriously hurt. Mike Corry, the superintendent of the company, attempted to start the fence building again and the women threw hot water on him. The men have decided to help the women fight it out, and they now stand with sleeves rolled up ready to drive the first man off who trespasses on their alleged rights.

Bissell Denounced the Commission.

ALBANY, Aug. 7.—At the meeting of the railroad commission ex-Postmaster General Bissell of Buffalo caused a little excitement by denouncing the commission's method of procedure to the accompaniment of swinging arms and trampling votes. During the transaction of routine business the secretary read the finding of the commission in the application of the Buffalo terminal and the Depew and Southwestern railroad for permission to build roads over practically the same route between Depew and Blaisdell. Mr. Bissell jumped to his feet and entered a protest, and quite a wrangle followed.

HAVANA, Aug. 7.—The officers of the Spanish man-of-war Sanchez Barceiztegui and Marie Cristina report that near the Colorado reefs they met a monstrous fish 50 or more yards in length. The Marie Cristina collided with some unknown substance, injuring her bottom plates. After a thorough search they found the monster which was followed by others of the same species but smaller.

This he would do either at Gray Gables or wherever he might be on that day.

Approves Terrell's Action.

WASHINGTON, Aug. 7.—The state department earnestly approves United States Minister Terrell's course in his demand upon the porters for the punishment of the three Kurds who murdered young Leuz, the bicyclist, who was making a tour of the world. Justice, it is said, moves slowly in Oriental countries, and it may be some time before the murderers are arraigned.

CHAPTER ON SWEEPERS

President Marshall Hunt For Cleaners.

MORE THAN ONE COMPANY

Was Asked to Sell the City, and They Quoted Prices—A Few Caustic Words From the Doctor—He Has a Few Letters to Prove the Attack One Long Lie.

The efforts of a local paper, ever willing and ready to think a man a thief, to throw a cloud over the street sweeper purchase and then with masterly brilliancy (?) clear it away by casting suspicion on an honest man, caused Doctor Marshall, president of council, to free his mind today.

If there was the slightest ground for the suspicion that council had tried to rob the city instead of doing it a great good by purchasing a sweeper there would be some excuse for the hints at jobbery and theft, but not a member of council can be shown as any way interested in the purchase beyond what good it will do the general public. The attack is unwarranted and without cause, but is in keeping with the questionable principles of the paper.

"For the benefit of the general public," said Doctor Marshall today, "I will say that the Crisis is as far from hitting the mark in the sweeper matter as it is in everything else. It speaks without understanding or knowledge, and in its blind ignorance goes stumbling along in the dark until it bumps against an obstruction, and in attempting to show if council has done anything wrong in this case it will meet more than one obstruction. As you and all the town know, the business of the city is open to the public, and whenever the public wants information it can get it. The Crisis never asked me, and as far as I know, never asked any other councilmen whether we had looked elsewhere before buying a sweeper. Had the paper done so it would not have made the awful blunder last night and would not now have one more big black mark to its credit. We did investigate, and have replies from half a dozen or more makers of street sweepers in the country. They all offered a price, and the F. C. Austin Manufacturing company wrote me a letter on the matter. Here it is," and the doctor pulled from his spacious inside pocket a type-written letter signed by the company in question. It was directed to him as the president of council, and offered an Austin sweeper at the regular rate, \$450, but stating that \$400 was the price. As a check upon any suspicion of jobbery the company have a system of its own and enclosed was a slip of paper showing that this offer was recorded on page 663 of book 173, and stating that the sweeper would not be sold at the price quoted unless the slip was returned. It states plainly that goods will be shipped at catalogue price if the slip was not returned with the order, and the slip represents their lowest discount.

"There are sweepers and sweepers," continued the doctor, "and doubtless we could buy them at the half of \$400, but we don't do private business that way and there is no reason we should do it for the public. Not a taxpayer in town wants a sweeper that will not do the work, and these cheap ones will never fill the bill in a hilly town such as this. We looked to the public interest when we bought the sweeper, and have no reason for believing that we got anything but one that will keep the streets clean. We got it for the least money it could be bought, and investigated before we made the purchase."

"The action of the paper in question can readily be traced to the fact that the News Review wanted a sweeper and it wanted the streets washed," said a city official. "It is a pure matter of jealousy. Newspapers are like men; not honored for what they claim to do, but what they really do, and I don't know of anything the Crisis ever did except blackguard people."

AT REST.

The funeral of the late Mrs. George Sebring.

The funeral of the late Mrs. George Sebring took place from the First Methodist Episcopal church this afternoon at 2 o'clock, a large number of sorrowing friends and relatives being in attendance. Reverend Butts, of East Palestine, was assisted in the services by Doctor Huston, and each paid honor to the life and deeds of the deceased, showing plainly the chief characteristics of a nature that was as good as it was sincere. The casket was almost buried in floral offerings, the beautiful pieces speaking in words louder than any language the high esteem and profound respect in which the deceased was held. Interment

was made in Riverview, a large course of friends going to the cemetery. Mr. Sebring and family have the heartfelt sympathy of many friends in their great sorrow.

A number of East Palestine people were in the city to attend the funeral among them being several employees of the pottery.

MISSED AN ATTRACTION.

The Best Minstrel on the Road Changed Its Mind.

When it was first arranged to open the Grand for the season the management attempted to book Billy Van's minstrels, one of the best companies on the road, but met with the haughty reply that his expenses were \$400 a day, and he couldn't think of stopping in a town like Liverpool. Another company was secured, and the management thought no more of the matter until a letter came from the sweet singing minstrel, for he is a sweet singer, asking the date, but it was too late to cancel the other, so Billy missed a few golden coins and Liverpool missed a good performance.

STOLE THE TENT.

Troubles of Youthful Showmen are Great.

The young showmen who have a circus on Avondale street have a hoodoo among them or their mascot has passed into the great mysterious beyond. The wind played them a scurvy trick the other night by blowing their tent to pieces, but with the hope and enterprise of youth they replaced it with a new one, and continued the performances. Being weary last night they did not take it down, and this morning it was gone. They believe they know the name of the thief, and unless the property is returned they will report the matter to the police.

IT MUST COME.

A Concentrated Move For a Navigable Ohio.

A move is on foot among rivermen that will in all probability result in the damming of the Ohio, so as to make it hold six feet of water every day in the year, and allow the running of boats at all times, except when Jack Frost intervenes. The congressmen of all the districts bordering on the river are to be invited to meet in Cincinnati some time before congress convenes, and a plan of active campaign is to be presented for their approval and convenience. If the river cannot be slackwatered in this way a stock company is proposed.

PRESERVED THE PAPER.

A Chinese Journal Found in an Old Crockery Crate.

While taking straw from an old crate at the D. E. McNicol pottery the other day some of the employees found a Chinese paper. The crate had evidently come from the flowery empire, and some celestial had dropped his morning paper in the straw unintentionally. The paper is of that tough, rough material always used by the Chinese, and the characters are smaller than those of the San Francisco paper. It was at once torn into several pieces, and now does duty for its several owners as a relic.

BOUND FOR HOME.

The Tourist Pottery Have Left the Shores of Europe.

Messrs. Sebring, McNicol, Forster and Jackson were in Paris on Monday, but have left that city, and are now on the ocean homeward bound. They will reach New York in the allotted time of six days if all goes well, and will be home next week. The travelers have had a delightful trip, and in private letters have told wonderful stories of what they saw, but there is a lurking suspicion that they saw many sights in the pottery districts which are of more interest to their business minds.

STRUCK BY LIGHTNING.

A Middleton House Destroyed by a Flash From the Sky.

MIDDLETON, Aug. 7.—The house of John Wickersham was struck by lightning yesterday and was soon enveloped in flames.

The house and its entire contents were burned. The loss is complete, there being no insurance on the house or goods. Nobody was injured.

DELAYED THE MAILS.

A Wreck at Hudson Caused Trouble Last Night.

Patrons of the postoffice accustomed to having certain mail delivered every morning with unfailing regularity were disappointed today because of a freight wreck at Hudson. It mixed up the mails, and caused no end of trouble to the railway clerks and in the local office. It required some time to unravel the tangle.

TO IMPROVE THE OHIO

Cincinnati Makes the First Good Move.

AFTER THE NEW CONGRESS

An Attempt Will Be Made To Enlist All the River Interests in the Various States. East Liverpool Will Be In It From the Start.

A special sent out from Cincinnati last night gives this interesting information:

"A report was made by the river improvement committee of the chamber of commerce yesterday in favor of improving the navigation of the Ohio river. The report was adopted and the chamber appointed a special committee of five to enlist all the river interests of the states bordering on the Ohio river to move with a solid front on congress at its next session to appropriate \$1,000,000 for that purpose."

East Liverpool will be directly in the movement, and will likely be given an opportunity to show what it can do. An outlet the whole year by the river would mean a powerful competitor for the railroad, as is proven by the large shipments when the packets are at work. If a movement is made that promises success the local board of commerce will get into the fight, and do its best to help the cause along. A member of the board said this morning that they believed the most formidable competitor the Pennsylvania company could have would be the river when slackwatered, and dams built along it from Pittsburgh to Cincinnati. He laughed at the idea of \$1,000,000 being anything like enough money to do the work, but said an appropriation would likely be made for that amount to start it.

"One good feature," said the gentleman, "would be the leverage we would have on the Pennsylvania company, and that would be worth thousands of dollars to the potters here every year. Now we can't have anything without paying dearly for it, and with a competitor in the shape of the river our saving would be a big thing. A great deal of Liverpool ware is sold in the south, and the Louisville and Nashville and the Cincinnati Southern roads would be only too glad to give us a low river rate in order to get the business. If this move in Cincinnati means anything we will work like beavers to help it along, for of all the important towns along the railroad needing better transportation we are the greatest sufferers. Portsmouth, Ironton, Steubenville and Wheeling have more than one road, and can play one against the other with pretty fair prospects of winning out. The money saved to Liverpool, for we ship many barrels of ware to the south, would pay for a substantial contribution to any fund raised for the purpose of pushing an appropriation through congress. Then the natural development of a country with such a waterway would mean great things."

ONLY A DELUSION.

It Was Not a New Trolley Wire—Only For Repair Purposes.

There was excitement near the power house yesterday afternoon. Motormen leaned far over the dash and looked with longing eye, while passengers stared from the windows and almost twisted their necks out of joint, for there was a great roll of copper wire, and the report had gone out that it was a new trolley wire. There was hope in every breast, and people rode homeward with the joyous assurance there would be no more transfers. But it was all a mistake, and transfers are as much in sight as they ever were, for when a newspaper man approached Superintendent Andrews with the half-uttered question on his lips, "When are you going to string it?" the man of many sorrows heaved a sigh, attempted to smile and replied, "It's wire for repair purposes."

TESTING THEIR SPEED.

Hale, Trappe and Irons Will Race On Monday.

President Will Taylor, of the C. C. C. C. is working hard today arranging for a few races, but good ones, at East End park on Monday afternoon. The principal riders will be Irons, Hale and Trappe, and the events will be of casual interest. These crack riders, for every one of them is a crack, will do their best, and all who attend are assured rare sport. There will be no prizes, but the contestants will ride for all they are worth. A telegram was sent to Trappe this afternoon, and his answer is expected in time for the C. C. C. C. meeting tonight when

all the arrangements will be completed for the road race. The prizes have been secured, and all who contemplate entering should be present. A number of new names will be acted upon.

A REGIMENTAL REUNION.

Many Pittsburgh Veterans to Be Here on Friday.

The surviving veterans who fought in Company F, Forty-sixth Pennsylvania Infantry during the war, will meet at Columbian Park tomorrow in annual reunion. The soldiers who reside here are Charles Shenkle, James Wildblood, James Baum, Samuel Searight, B. W. Haines and N. A. Frederick. The regiment was recruited in Pittsburgh and Beaver county, and a number of persons from there will be here. The Grand Army and the Relief corps will attend the picnic tomorrow afternoon. The old soldiers will do nothing during the day, but enjoy themselves.

A GREAT GAME.

Goodwins Defeat the Thompsons and Are Jubilant.

The long looked for game between the Goodwin and Thompson pottery teams was played at West End yesterday and the Goodwin nine were victorious by a score of 12-4.

The features of the game were the battery work of Farish and Phillips for Goodwin's and the fielding of the Carey brothers for the same club. Lynch, Hackathorne and Specht were the battery for Thompson's.

The Goodwin team feel so good over their victory that they decorated their shops today with flags and announced their willingness to play with any team in the city.

THE GOVERNOR COMING.

He Will Be Here on Friday or Saturday.

Governor and Mrs. McKinley will be here on Friday or Saturday, and will stay a week or two at the residence of Col. John N. Taylor, on Fifth street. The governor will attend the picnic of the Township Line club on Wednesday of next week. They have been very anxious to have him there, and the news will be cheering intelligence to them. The governor has been paying particular attention to state business for weeks, and the rest here will do him a great deal of good. He always likes to come to Liverpool, and the city has a warm place in his heart.

A DISGUSTED MAN.

Otto Schmidbauer May Quit the Business.

Otto Schmidbauer is disgusted. For several years he has been the official night soiler of the city, and was happy, but now he doesn't care whether he continues the business or works on the streets with pick and shovel. His complaints are numerous. He now gets but \$17 for what he formerly got \$40, and money is hard to collect. In fact he seldom collects any of it, but the last straw came the other day when he was informed by a man who owed him that "in the old country they pay big money for the privilege of doing what you do."

A WARNING.

A Liverpool Family Will Not Visit In Martin's Ferry.

Arrangements had been completed by a resident and his family to visit with friends in Martin's Ferry, and they were packing their trunks preparatory to leaving this week. But they didn't go, nor are they likely to go. A letter came from the people they were to visit warning them to keep out of the place for smallpox was still in the town, and was increasing at a dangerous rate. The trunks were unpacked, and the family remained at home.

NOT COMPULSION.

The Soldier Boys Are Anxious to Go to Camp.

Members of Company E want the public to understand that their going to camp is not a question of compulsion. They signed a paper some time ago agreeing to sacrifice their pay if taken to camp, and there is nothing in the idea of compelling them to go. They do not care whether they are compelled to go or of their own free will, they want to go and expect to go, for they have had no word to the contrary.

Married in Poland.

Bert Phillips, superintendent of the rolling department of the Lisbon tin mill, secured a license yesterday afternoon at the court house, and this morning left Lisbon for Poland, O., where he was married to Miss Linne D. Cope, of Wellsville. Both young people are well known here, and their many friends wish them joy. Miss Cope was one of the leading society women of Wellsville.

ALL ABOUT A VAULT

Officer King Has a New Case In Court.

WILL BE TRIED BY A JURY

And Will Be Delayed Several Days Because There Are No Lawyers In Town. The Officers Do Not Like the Treatment, and Will Push the Case.

The board of health have another case in court, and this time it is all about a vault.

Not long ago Officer King and Otto Schmidbauer looked at Carpenter's run, and in their travels found a well-filled vault on the property of Mrs. E. J. Bagley. It was decided to notify the owner, but the night-soiler could not find her, and made complaint to her husband. There was a row of no mean proportions, Bagley asserting that he would attend to that matter himself. As he was positive there was nothing further for Schmittbauer than to walk away. This did not satisfy the health authorities, and Bagley was notified again to fix the vault. Then he claimed there was no vault there, and that put the officers on their mettle. They left Bagley alone in his glory, and investigated. They claim the box had been removed, it was located a few feet from the run, and the hole filled up with ashes and fresh dirt. Not satisfied with what their eyes showed, they secured a sewer hook, and probed the ground with satisfactory results. Then Officer King notified the mayor, and he informed the defendants that a charge was against them. They appeared this morning, and the sanitary policeman was given a thorough overhauling in the presence of the mayor. Bagley charged King with all sorts of things, but it had no effect on the mayor since the official was not there to defend himself, and took their plea of not guilty. As this would necessitate a jury trial, the mayor could do nothing but delay the trial until next week. A great deal of bad blood seems mixed up in the case, particularly on the part of the defendants.

At Spring Grove.

While Spring Grove is just as pretty as at any time this season, and life in the park has not lost a single pleasure, cottagers are commencing to move home. John Patterson had his household goods brought in today.

The rain last night was the fiercest experienced this season, and some cottagers feared their roofs would not stand the constant patter, and prepared for weak spots with tubs and buckets, but there was little, if any, inconvenience in camp.

Lost Three Fingers.

Special to the News Review.

LISBON, Aug. 7.—When the 7-year-old son of William Lodge, of this place, was playing with an axe this morning he discovered that an axe is not the most pleasant toy in the world, for it cost him three fingers of his right hand.

Mrs. Susan Crawford, an aged resident of this place who is well known in the southern part of the county, is very ill, and it is feared she cannot survive the afternoon.

Powell Won't Row But He Will Run.

John Powell, pressman of the News Review, in answer to the challenge of John Litmer, pressman of the Crisis, desires to say that he will not row him a race because he never lived by the water, he doesn't like water and only uses it for drinking purposes. But if the other pressman wants an athletic contest Powell offers to run him five miles across country in the heat of the hottest day possible for honor or money as his opponent will decide.

Serving Notices.

Chief Gill was busy yesterday from early morn until late at night. He was serving notices on property holders whose land is on Peake Point, Ridgeway avenue, Calcutta road or West Market street because of the grading operations that will soon be commenced on these streets.

Criminal Libel and Damages.

M. M. Huston, who figured prominently in the little episode with Commissioner Welsh on Monday evening, told a reporter today that he would enter suit for criminal libel and damages against a local paper for the manner in which he was written up last night.

Offers a Reward.

Chief Gill carries around with him a letter from Carl Bros., of Shreve, offering \$50 reward for the capture of burglars who robbed them the other evening of revolvers and cutlery to the amount of \$300.

NEGROES ARE BARRED

All Their Effects Moved From Spring Valley, Ills.

MINERS READY FOR OUTSIDERS.

Not Scared by the Threats of Negroes in Chicago and Peoria to Attack Them. Sensational Reports Condemned—One Correspondent Run Out.

SPRING VALLEY, Ills., Aug. 7.—The situation is very quiet in the city. The negroes are making no effort to come back. The reports about armed negroes coming from Peoria and Chicago to avenge Sunday's affair caused no unusual excitement here. They would not have only the Italian miners to deal with, but every white miner in the city as well, numbering in the neighborhood of 2,000. Word has been sent in from Ladd and Toluca promising the whites all the assistance necessary in case of an invasion of blacks from other towns. In case of an invasion 5,000 white miners could be mustered together in this city in less than two hours. The whites of this city do not apprehend any danger in that direction. They do not express the least sorrow over the event of Sunday, and invite a fair and impartial investigation.

They claimed to have endured the outrages of the blacks as long as they could, but they are severe in their criticisms of the sensational tales told in several special dispatches to the newspapers. A whole list of names have each day appeared as wounded and likely to die. Your correspondent, who was on the ground and witnessed Sunday's battle from beginning to end, has succeeded in discovering that one negro shot, and the injury is only a flesh wound of no serious nature. About 10 to 12 were assailed with sticks or stones, but no attempts were made to kill. Had the mob been so disposed, not one could have escaped. The prime object was stated on the ground while the fighting was at its height, was to scare them into leaving and never come back again. The reports of a number lying dead in the ravine is made of whole cloth, and the names mentioned are fictitious. At a meeting of miners, several papers were denounced for their highly colored and distorted stories. The newspaper correspondent who was compelled to flee the town has not returned. It was the middle class business men who ordered him to leave, so enraged were they at his sensational reports.

Mayor Dolmage has received an anonymous letter postmarked Chicago, threatening to visit him and the entire city out of existence if he did not use his position to get the blacks back in this city again. Everything has gone along serenely since the negroes were driven out Sunday, but no doubt trouble will again be asked out if they make an attempt to come back. The Spring Valley Coal company have representatives at Seatonville trying to persuade the blacks to return, but the latter are satisfied to keep away. The mines are still idle. Nearly all the negroes have gotten their effects out of Spring Valley. Nearly all their furniture has been moved to Seatonville, where most of them are getting work. In all probability the Spring Valley miners will return to work today.

Governor Altgeld is on his way here to investigate the situation. A Chicago special says: The stories of two women refugees from Spring Valley who stirred the negroes of Chicago to the highest pitch. At a mass meeting committees were appointed to raise funds and secure arms for a force to proceed against the Italians in Spring Valley. A delegation called on General Merritt to ask that the United States troops be sent to Spring Valley. He told them that in the event of the failure of the civil authorities to preserve order and protect the colored people of Spring Valley, he would act. The facts had been communicated to President Cleveland by telegraph. A white man who advised moderation at the mass meeting was thrown out of the window.

He Denounces Turkey and Asks England to Help the Armenians.

WINCHESTER, England, Aug. 7.—Mr. Gladstone has made a speech here on the Armenian question to a large audience. He said that a dispassionate inquiry, which was made after the Sassoun massacre, showed that the powers of language did not suffice to describe the statements, which made the blood run cold. [Loud applause.] The present situation in Armenia resulted from intolerably bad government, perhaps the worst on the face of the earth. [Applause.] He then read a resolution to the effect that: "This meeting expresses its conviction that her majesty's government will have the support of the entire nation, without distinction of party, in any measures it may adopt in order to secure for the Armenians such reforms in the administration of the province as provide effective guarantees for the safety of life, honor, religion and property, and no reforms can be effected without the continuous control of the European powers." It was adopted.

WOMEN ENGAGE IN A RIOT.

Wives of Squatters Tear Down Fence Built by Owners of Land.

MARINETTE, Wis., Aug. 7.—A riot has occurred in Shantytown, the land which is claimed by the Menominee River Lumber company, also by over 300 squatters. The lumber company built a fence and 30 or 40 women attacked it with axes, tore it down and then threw the fragments into Green bay.

When another crew attempted to rebuild the fence the women chased them away with clubs, and John Lumburg, the foreman, was seriously hurt. Mike Corry, the superintendent of the company, attempted to start the fence building again and the women threw hot water on him. The men have decided to help the women fight it out, and they now stand with sleeves rolled up ready to drive the first man off who trespasses on their alleged rights.

Mr. Bissell jumped to his feet and entered a protest, and quite a wrangle followed.

WASHINGTON, Aug. 7.—The state department earnestly approves United States Minister Terrell's course in his demand upon the porte for the punishment of the three Kurds who murdered young Lenz, the bicyclist, who was making a tour of the world. Justice, it is said, moves slowly in Oriental countries, and it may be some time before the murderers are arraigned.

Fermented Wine Barred at Communion.

CHICAGO, Aug. 7.—The Chicago presbytery has decided that the churches belonging to it must not use fermented wine at communion services, and that unf fermented grape juice must be substituted at all times. To carry out the work of temperance still further, temperance pledges will be placed in the Sunday schools.

IN CAMP.

Liverpool Men Have a Nice Time On the
Potomac.

Following is an extract from a letter
that will interest the many friends
of the persons mentioned:

We are pleasantly situated on the
south branch of the Potomac, within
a short distance of an old picket post
that did duty during the war. At this
point the stream is less than 500 feet
wide, but between the riffles there is
20 and 25 feet of clear, blue water. The
mountains rise in the front and rear
of our camp, and tower high into the
air. Game is scarce, but some bear,
deer, squirrel, wildcat and turkey can
be found here in season. The fishing
is good, and the boys are wasting no
time. At least 30 bass have been
caught, and eight squirrels have
fallen victims to the marksmen in the
two days we have been here. One day
was required to put the camp in order,
so you can see we have been very suc-
cessful. We are all well and pleased
with our stay. Our appetites are all
right, and we have plenty to eat, with
pure, clear mountain water to drink.
We had for dinner today squirrel pot-
pie, boiled potatoes, corn on the cob,
huckleberries and huckleberry short
cake. Bud Whiting, our cook, had
the dishes served in nice style. We
have the best of butter, milk and
bread, getting the last at Romey, six
miles from camp.

This is Sunday, and we are in camp
reading and writing. We got the
NEWS REVIEW yesterday, and were
glad to see it. Our first night was
spent with G. H. Joeman. He is a full
fledged Johnny, but full of war stories,
a jovial, good fellow who took part in a
number of the fights against some of
us during the war. Tomorrow we en-
mence hunting and fishing in earnest,
as our camp is now comfortable and
our sleeping apartments agreeably
and comfortably arranged. Those of
our number who felt unwell on leav-
ing home are now much better,
especially Scott and McKinney. If you
could see the amount they eat at a
meal you would be surprised. In fact
none of the party can beat them in
that line. Even William Thomas
now enjoys three meals a day; while at
home it was a rare thing if he ate one.
The weather is delightful, all that
the heart could desire, although a
storm has just passed off leaving every
indication of clear weather. Storms
appear and disappear very suddenly
here in the mountains. This sea-
son there is an abundance of grain
and fruit, with a plentiful hay crop.

While out ginning Al Scott and A.
G. Meinhardt sealed one of the highest
mountains of the vicinity, a feat they
are not anxious to repeat. When
within a hundred yards of camp, re-
turning, they called for a drink as
water is scarce along the route they
traveled, and they neglected to take
canteens. The natives have not
visited us in great numbers, but a
few have sauntered into our camp.
Mr. Johnson has visited us several
times, entertaining the boys with his
adventures with the Yankees, and re-
lating incidents with which some of
us are quite familiar, among them
being the capture of General Kelly at
Cumberland. Tell the Grand Army
boys that some places we occupied
when on picket have not changed
a great deal from what they were 30
years ago. The farmers here appear
to be prosperous, and raise quite an
amount of stock. Some of the most
beautiful farms to be seen anywhere
are in the bottom lands, being well
cared for and under good cultivation.
While I am writing the fly over the
tables blew down, but the boys are at
work, and will soon have it up again.
A number of natives had just come to
camp and were sitting under the fly
when it went down. Being all quiet on
the Potomac, I'll stop writing.

Yours truly,
THOMAS LLOYD.

ANOTHER LETTER.

How One Member of the Party Enjoys the
Fun.

In a private letter Charley Dix, of
the NEWS REVIEW, tells his camp ex-
periences this way:

"We have a beautiful camping
place and a model camp. With the
mountains in the rear and the river in
front there is nothing we can not
have. Boards had been delivered on
the ground, and we soon made splen-
did tables and serviceable tent floors of
them. Two good springs, not 30 feet
from camp, give us all the water, pure
and sparkling, we want. The first
fish was caught by Holly Grosshans,
who landed a beautiful bass, and I
had the fortune to get on reel about 18
inches long. The thing looked so
slimy I handed it over to Wilson, who
unhooked it as deftly as if he had
been accustomed to eels all his life.
Although the mountains were hot and
dry we had great sport with squirrels.
We ran across a colony barking about
in great glee, and in five minutes five
of them were dead. Wilson killed
two in good style, and when we got
back to camp there were nine squir-
rels ready for skinning. Holly Gross-
hans had caught seven big bass while
we were out, and we had a feast fit for
the gods. We get berries for 20 cents
a gallon and butter for a shilling a
pound. Apples are worth 40 cents a

bushel, and fish and squirrels cost
powder, shot and a lot of fun. From
present indications we are going to
have a big time, and all the boys are
happy and feeling good. A few snore
but we are getting accustomed to that,
although they say Al Scott jumped up
in great fright the other night when
Mr. Lloyd snored. He thought a bear
was in camp."

FREE SILVER WON.

Bland Has His Way in the Missouri
Democratic Convention.

PERTLE SPRINGS, Mo., Aug. 7.—Free
silver has conquered in Missouri as it
did in Illinois, and previous fears ex-
pressed that there would be strife and
turmoil in the Democratic state con-
vention were borne out by facts. The so-
called gold, or sound money "adher-
ents," were so overwhelmed by the su-
perior generalship and numerical
strength of the free silver leaders and
forces that they made but a very faint
effort to stay the onslaught of the
white metal adherents.

Bland said in opening the convention
that the Democrats of Missouri had as-
sembled to adopt resolutions for the
free coinage of silver and to select a
state committee which would be in
sympathy with the popular will, and
how well his prophecy was carried out,
the result of the convention tells. The
report of the committee on permanent
organization, which practically snows
under the old committee, was adopted
with but one or two dissenting voices;
that of the resolutions committee for
free and unlimited coinage of 16 to 1,
regardless of any foreign nation, was
carried with a hurrah and expedition
 seldom seen in any convention, and, fur-
thermore, men were selected to nomi-
nate delegates favorable to silver to
the national Democratic convention in
1896.

The First Baseball Mask.

James A. Tyng in a letter to the New
York Sun describes the origin of the base-
ball mask as follows:
"The first public appearance of the mask
was in the spring of 1877. I was at that
time a member of the Harvard nine, and
Thayer, who was then captain of the team,
wanted me to fill the position of catcher.
To this my family were opposed on ac-
count of the danger, and I suggested to
him the idea of having a mask made that
would protect my face. He followed my
suggestion, and a wiremaker in Boston
made me a mask which, although heavy
and clumsy compared to the one now in
use, answered the purpose for which it
was intended, and this mask was worn by
me in the three remaining years that I
played and caught on the nine. Thayer
took out a patent on the 'invention,' and
I believe has made quite a large sum of
money out of it. This latter statement,
however, is entirely on hearsay, as neither
the poor wiremaker nor the original sug-
gester of the idea of such a protection for
the catcher has ever seen any of the fruits
of his ingenuity."

ALL SORTS OF SPORTS.

Lord Dunsavon says this is the last at-
tempt he will make to win back the
America's cup.
Joe Acton, the famous wrestler of ten
years ago, now scales 220 pounds. He used
to wrestle at 140 pounds.
W. G. Grace, the world's greatest crick-
et, says his mother was an enthusiastic
for cricket and often bowled the future
champion in her own garden.
Parson Davies proposes to go to England
in October with Jimmie Barry, the Chi-
cago bantam weight boxer. Davies will try
to match Barry against Peddler Palmer.
The Century Road club of America has
awarded Mrs. C. M. Fairchild of Chicago
a gold medal for noteworthy riding in
1894. She rode 6,387 miles, including 28
centuries.

moisture. Clean, neat and durable.
When soiled simply wipe off with a
wet cloth. The genuine are made by
